DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6, 8-11 and 13 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Feild et al. 2,859,086.

3. Feild et al. disclose applicants' compound and acrylonitrile homo- or copolymers in column 1, lines 48-65, the Examples and claims 1, 2, 10, 11, 14, 15 and 16. The flame retardance is inherent in the composition. The process step, i.e. imparting, is met. Applicants' claims are not novel. In the alternative, even if the compound of Field et al. does not exactly match applicants' claims, it is a homologue, making applicants' invention obvious to one of ordinary skill in the art.

Allowable Subject Matter

4. Claims 7, 12 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
